DETAILED ACTION

This action is in response to Amendment filed January 16, 2007. All applicant's arguments have been considered.

Response to Arguments

Applicant's arguments, see Amendment, filed January 16, 2007, with respect to claim 1 have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn. Applicant provided a statement of common ownership under 35 USC 103 (c) to overcome the Takagi reference.

Allowable Subject Matter

Claims 1-27 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art fails to teach or suggest an optical system with a plurality of surfaces where the first surface reflects light toward a second surface and the second surface reflects light back toward the first surface and the second reflection by the first surface is to the opposite side of the previous reflection with respect to a normal at a hit point of the central field-angle principle ray on the first surface and the plurality of surfaces includes a diffractive surface.

The remaining claims depend from claim 1 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
